

Shared Insights Data: Strategies for handling cyber attacks and data breaches

 13 June 2024

This is the third of our popular Shared Insights Data series.

In this session we will delve into the complex world of breach management, gaining valuable insights into the evolving landscape of cyber threats and data breaches and the best practices for mitigating their impact. Led by experts in the field, delegates will learn from real world experience and discover practical strategies for detecting, responding to, and recovering from cyber-attacks and data breaches.

This event offers invaluable insight to help safeguard your organisation's digital assets.

The session will be chaired on Teams by Browne Jacobson partners Charlotte Harpin and Matthew Alderton.

Delegates will have the opportunity to share best practice and put questions to the panel to hear their insights.
